

ACADEMIC CREDITS CERTIFICATE

EAHEA[®]
European Association for Higher Education Advancement

Academic Credits Certificate (For Institutes, Individuals)

Graduates from the European Association for Higher Education Advancement accredited institutions or from institutions of education holding an equivalent accreditation (approved by the EAHEA) may ensure and demonstrate that their education diploma, earned credits, and awarding institution are considered to be bona fide and accredited according to the European Association for Higher Education Advancement standards by requesting an EAHEA Academic Credits Certificate. The EAHEA Academic Credits Certificate also specifies the total credits earned and their equivalency in the United States (USC), the United Kingdom (CATS), and European credits system (ECTS).

What Is The Academic Credits Certificate From EAHEA?

The European Association for Higher Education Advancement (EAHEA) is interested in assisting individuals to validate their degrees, validate their diplomas, and recognize earned credits on an international scale. To this end, we have prepared a degree validation procedure that will certify the credit and degree equivalency of any diploma or certification earned at any of the EAHEA-accredited or local-accredited institutions. This academic credits document will also endorse the external quality review of the degree, institution, and program of study.

The European Association for Higher Education Advancement considers this academic credits document service to be an important and constructive process to facilitate the acceptance of the degrees and credits earned from our accredited institutions.

Note that accreditation is a voluntary and non-governmental process. No accreditation in the world can provide automatic acceptance and degree validation of the credits earned at other institutions, nor does it guarantee the acceptance of graduates by employers. Acceptance of students or graduates is always the prerogative of the receiving institution or employer.

What Are The Benefits Of The Academic Credits Certificate?

You will receive an international academic credits certificate issued by the European Association for Higher Education Advancement that will state the following information:

- Graduate's full name
- Verification of the diploma and specialization earned
- Verification of the total credits corresponding to this diploma and specialization
- Verification of the composition of the credit in hours of study
- Certification of the credits equivalency to the United States (USC)
- Certification of the credits equivalency to the United Kingdom (CATS)
- Certification of the credits equivalency to Europe (ECTS)
- Assurance that the awarding institution is meeting the EAHEA education quality standards

The EAHEA degree/diploma validation may be useful for the global acceptance of the degrees and credits by employers, professional associations, other institutions, colleges, or universities.

What Will You Get After A Successful Application?

You will receive 4 documents issued/approved by the European Association for Higher Education Advancement:

- Degree Validation Certificate
- Academic Credits Certificate
- Academic Qualification Equivalency Statement
- Signed and Sealed Diploma and Transcript Copies

Who May Obtain An Academic Credits Certificate From EAHEA?

The European Association for Higher Education Advancement may validate degrees and diplomas from the following educational providers:

1. EAHEA Accredited Institutions: The academic credits certificate may exclusively be issued to students who have completed a program of study in any of the EAHEA-accredited institutions while the accreditation status remains valid. If your school is not included in the list, you may recommend they consider getting the European Association for Higher Education Advancement accreditation.

2. Institutions Holding an EAHEA Equivalent Accreditation: This accreditation equivalency will be determined by the European Association for Higher Education Advancement after the application for an academic credits certificate is submitted by a graduate of such institution of education.
